.....

This beautiful, moving memoir chronicles the author's battle with kidney disease and how she was ultimately saved three times – by the selfless acts of her brother, husband and, finally, her friend.

It's a triumphant story

of hope and love – and it's written so honestly and so lyrically that you won't be able to stop yourself from sobbing, from the first sentence to the last.

Bottom Line: Buy this book – and plenty of Kleenex – immediately.
